MegaPath Hosted Voice

MegaPath Hosted Voice delivers more functionality than a traditional phone system, without the costs of managing and maintaining a PBX. It's a high-performance, no-maintenance Hosted PBX solution that gives businesses a competitive edge.

How It Works

- **Calling and Long Distance Plan:** Choose your calling or long distance plan.
- **Company-Wide Features:** Services such as Auto Attendant and Hunt Groups are available as optional add-ons to your service, for use by your whole company.
- **Broadband Connection:** Select from one of MegaPath's business class broadband options, including DSL, T1, Bonded T1, and Business Ethernet with speeds up to 20 Mbps. MegaPath's voice-optimized nationwide network ensures reliable connectivity and security, while providing consistently clear voice quality.
- **Voice Gateway:** MegaPath provides you with equipment that manages your voice and data traffic that ensures that you experience the best possible call quality.
- **Employee Features:** With over 50 basic and advanced features, MegaPath Hosted Voice is a complete solution that helps companies increase efficiency and work smarter than ever before. Basic and advanced calling features are included in the calling plans for each employee. Advanced features such as Visual Voicemail, Find Me/Follow Me and Hosted Voice Mobile help increase productivity and are part of the MegaPath Hosted Voice standard feature set. These advanced features are not available with traditional phone services.
- **IP Phones.** Select from many high-quality phones from Polycom and Cisco.

Hosted Voice Benefits

Lower Start-up Costs and Monthly Savings. No PBX equipment to buy or lease. No maintenance contracts or fees for account changes. All you need are IP Phones and a voice gateway connected to your modem or router.

Flexible Calling Plan Options. Choose from a range of calling and long distance plans.

Work Smarter with Advanced Features. Flexible features save time and improve communication with customers and colleagues. Easy-to-use features include: Hosted Voice Mobile which provides complete call control for mobile and virtual workers; Visual Voicemail; Find Me/Follow Me; and many more.

Voice Quality. Because we have full control over our network, MegaPath is able to prioritize voice from end-to-end. That means that unlike other providers, we can provide true Quality of Service (QoS) to ensure crystal-clear call quality.
